“*Dave is my big brother, protector and was my best friend for the majority of my life. He loved to play practical jokes on people, could have been axle grease on the car door handle, plastic wrap on the toilet or scaring the heck out of you. He loved to tell stories that would make your side hurt from laughing. He loved his friends like they were brothers and was always by their side when they called. He loved his children, Jessica, Joey and Trish and his grandchildren with all his heart and soul and would protect them with every part of his being. He believed in taking care of family no matter what! Dave helped so many people during his short life I couldn't possibly mention them all. He loved his Harley and was on it every chance he got even in the winter. He really enjoyed going to Sturgis and hang out with his friends and family, it is because of Dave that me and Byron were able to experience Sturgis too, he's the reason I bought my first Harley. Every time I see a bike, hear a bike or ride one, I will think about him. Dave also loved to have family and friends gather for good times, whether it was a BBQ, a camping trip or a holiday it was all about his family and friends. My heart is broken knowing that I won't be able to hug him again, listen to his stories again, laugh with him again or even argue with him again, I will miss him so terribly! The world lost a good man when he left this world! Dave taught my sons to be the good men, fathers, and husbands they are today, although an uncle he always made sure he was there for them. Dave was the best big brother I could have asked for and he will forever be loved and hold a special place in my heart!*”

He was definitely an amazing person and I am proud to have been enfolded into your family, loved and cared for as though we were blood... He was always there for all of us when we needed him and yes he was always playing jokes on people or just being onery and teasing a shy fifteen year old into embarrassment but only in a loving way... He'll be greatly missed but always loved and in my heart, I would like to wish all of the family my deepest condolences and love as well.

Dave you will be missed by many many friends and family. Good friend you was. I remember first meeting you back when our kids were little tikes. Always joking around with everyone. One best memories was when we all rode our bikes in parade and you giving Mac heck when ours quit before we barely got started lol. Then to find out was just bad gas. You always would stop and talk no matter where we all were at. Ride high in that great Heaven above. Hugs and prayers to all your family.
